

POWERTWIST Move B/17

Product #

RATING

B/17 POWERTWIST Move Conveyor Belting offers many benefits over traditional polyurethane belting: No Welding; Easy, Fast Installation; Longer Belt Life; and Resistance to Harsh Environments.

Best Suited For: Conveying applications designed to use classical B/17 section polyurethane belts.

Take advantage of the added-value benefits of POWERTWIST Move High Performance Conveyor Belting:

Easy, Fast Installation with No Welding Required

- Make to length by hand, without tools
- No curing time, just twist and go!

Longer Belt Life

- Extremely high strength and excellent performance in harsh environments

Simple Inventory Management

- Less money tied up in spare belting and no belt waste

From standard conveying to applications requiring abrasion resistance, non-marking, high temperature, oil and chemical resistance, you name it- simply ***Twist and Go*** with POWERTWIST Move Belting for all of your conveying needs.
