DATASHEET - UTI0,5-115

Control transformer, 0.5 kVA, Rated input voltage 208 – 600 V, Rated output voltage 2 x 115 V

Part no.	UTI0,5-115
Catalog No.	206926
Alternate Catalog	UTI0.5-115
No.	

Delivery program

Product range		Single-phase UTI multi-winding transformers
Rated input voltage	V	208 - 600
Rated output voltage	V	2 x 115
Rated power	kVA	0.5
Cu factor 1,30		
Notes		
The transformers UTI are suitable for use in control circuits to IEC/EN 60204 or VDE 0113.		

Transformer-protective circuit-breaker →#088907

Technical data

Built and tested to Inviersal control, isolating and safety transformers to VIEC/CNN 65858-222.4/2-8 Suitable for use to Inviersal control, isolating and safety transformer) Suitable for use to IEC/CNN 65858-222.4/2-8 Automation and the sted to use to IEC/CNN 65859.272.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use to IEC/CNN 6587.072.4/2-8 Automation and the sted to use	General

Design verification as per IEC/EN 61439

Technical data for design verification			
Rated operational current for specified heat dissipation	In	А	0
Heat dissipation per pole, current-dependent	P _{vid}	W	0
Equipment heat dissipation, current-dependent	P _{vid}	W	0
Static heat dissipation, non-current-dependent	P _{vs}	W	49
Heat dissipation capacity	P _{diss}	W	0
Operating ambient temperature min.		°C	-25

Operating ambient temperature max.	°C	40
EC/EN 61439 design verification		
10.2 Strength of materials and parts		
10.2.2 Corrosion resistance		Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures		Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat		Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects		Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation		Meets the product standard's requirements.
10.2.5 Lifting		Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact		Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions		Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES		Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances		Meets the product standard's requirements.
10.5 Protection against electric shock		Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components		Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections		Is the panel builder's responsibility.
10.8 Connections for external conductors		Is the panel builder's responsibility.
10.9 Insulation properties		
10.9.2 Power-frequency electric strength		Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage		Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material		Is the panel builder's responsibility.
10.10 Temperature rise		The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating		Is the panel builder's responsibility. The specifications for the switchgear must observed.
10.12 Electromagnetic compatibility		Is the panel builder's responsibility. The specifications for the switchgear must l observed.
10.13 Mechanical function		The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

Degree of protection (IP)		IP00
Ring core		No
Suitable for mounting on PCB		No
Modular version		No
Conductor material		Copper

Approvals

Product Standards	UL 506; UL5085-1; UL 5085-2; CSA-C22.2 No. 66; CSA-C22.2 No. 66.1-06; CSA-C22.2 No. 66.2-06; IEC/EN 61558-2-2; CE marking
UL File No.	E167225
UL Category Control No.	ΧΡΤΩ2, ΧΡΤΩ8
CSA File No.	UL report applies to both US and Canada
CSA Class No.	-
North America Certification	UL recognized, certified by UL for use in Canada
Specially designed for North America	No
Suitable for	Branch circuits
Max. Voltage Rating	600 V AC
Degree of Protection	IEC: IP00, UL/CSA Type: -
