Descriptions

Unit display

Displays unit being used (only kPa and MPa).

OUT1 Output display (Green)

Lights up when switch output (OUT1) is turned ON.

△ UP button

Use this button to select the mode or increase the ON/OFF set value. It is also used for switching to the peak display mode.

S SET button

Use this button to switch the mode and set the set value.

LCD display

Displays the current pressure condition, setting mode, and error codes. A display colour type can be selected from either a single colour display with red or green, or 2-colour display in which green and red are switched according to the output. Four different display settings are available.

OUT2 Output display (Red)

Lights up when switch output (OUT2) is turned ON.

▽ DOWN button

Use this button to select the mode or decrease the ON/OFF set value. It is also used for switching to the bottom value display mode.

Functions (Refer to pages 10 and 11 for details.)

Copy function	Copies the settings of the master sensor to the slave sensors.
Auto-preset function	Calculates and enters rough set values automatically from the actual operating conditions.
Precision indicator setting function	Evens out deviations in the displayed value.
Peak display function	Can retain the maximum pressure value displayed during measurement.
Bottom display function	Can retain the minimum pressure value displayed during measurement.
Key lock function (Security code input can be selected)	The key board can be locked to prevent any incorrect function of the switch.
Zero-out function	The pressure display can be set at zero when the pressure is open to the atmosphere.
Anti-chattering function	Prevents possible malfunction due to sudden fluctuations in the primary pressure by adjusting the response time.
Unit display switching function	Can convert the display value.
Power-saving mode	Reduces power consumption.
Display resolution-switch function	Converts display resolution from the normal value of 1/1000 to 1/100. It reduces the monitor to flicker.
kPa⇔MPa switch function	Converts the unit between kPa and MPa.
